

GROW MAX WATER™
Perfect Water for Plants and Gardens

**WATER SYSTEMS
FOR HYDROPONICS AND GARDENING**

Water is the **Foundation** for **GROWTH**

When you really think about it, quality water and rich soil are the foundational components of the healthiest plants, flowers and vegetables. It stands to reason that if the water you use is not clean, what you grow will not be either. **GrowMax Water Systems** were developed specifically for use in hydroponics and gardening applications to deliver the cleanest, purest water possible for your vegetation. Our complete line of products are designed to meet the needs of all growers; garden hobbyists and large-scale professional growers alike. From multi-stage filtration to reverse osmosis and de-ionization units, GrowMax Water has the right system for you.

Grow It To the MAX with GrowMax Water!
